SHIVAM RATHORE

Ghaziabad, UP, India | +91 9958587530 | srathore4315@gmail.com | Web Resume | LinkedIn

PROFESSIONAL SUMMARY

Software Engineer with about 2 years of experience building high-performance, cross-platform applications with JavaScript, TypeScript, React and Flutter, and automating engineering workflows with Generative AI, LLMs, AI agents and MCP. Experienced in owning features end to end, from design review to production deployment.

EDUCATION

RAJ KUMAR GOEL INSTITUTE OF TECHNOLOGY — **Ghaziabad, UP**

B.Tech in Computer Science and Engineering — 2020 – 2024

- Cumulative GPA: 8.36/10

GAUTAM PUBLIC SR. SEC. SCHOOL (CBSE) — **Ghaziabad, UP**

12th Grade: Passed with 93.80% — 2019

10th Grade: Passed with cumulative GPA 9.6/10 — 2017

EXPERIENCE

STUDYPAD INDIA PVT. LTD. (SPLASHLEARN) — **Gurugram, Haryana**

Software Engineer — *Jan 2025 – Present*

- Build interactive, high-performance applications using JavaScript and TypeScript on Cocos Creator and Cocos2d-JS, deployed across web, iOS and Android.
- Designed and built AI agents and agentic workflows to automate repetitive engineering tasks, reducing manual effort and accelerating feature delivery.
- Use Generative AI tools such as Claude Code to speed up feature implementation; automated UI prefab generation by extracting design coordinates and sizes with a Figma plugin and generating prefabs directly through extension scripts.
- Developed real-time multiplayer features for multi-player experiences.
- Took sole ownership of a new product, “Flip-N-Find”, from development to production deployment across platforms.
- Delivered 15 reusable, template-based modules for the “Grammar” project, built on a common architecture.
- Improved user completion rates by 20–40% through data-driven, A/B test-based improvements that maintain backward compatibility.
- Optimized performance using spritesheets, compressed assets, object pooling and lazy loading.
- Integrated Mixpanel event tracking to monitor performance, completion rates and errors.
- Built responsive experiences for iPhone, iPad and desktop, and collaborated on design reviews, QA and multi-stage deployments.

Software Development Engineer Intern — *Jul 2024 – Jan 2025*

- Developed frontend features using Flutter, ReactJS and TypeScript in a product-based company, including animations in Flutter.
- Migrated a complete screen from ReactJS to Flutter, improving product quality, user experience and cross-platform usage.
- Implemented the frontend of an Adaptive Algorithm that skips similar content based on defined logic, increasing completion rate by 20%.
- Integrated REST and GraphQL APIs; resolved production bugs, delivered new features, managed tasks in Jira and handled CI/CD with Jenkins.

TECHNICAL SKILLS

Programming Languages: C, C++, JavaScript, TypeScript, Dart

Frontend Development: HTML, CSS, ReactJS, Flutter, Cocos Creator, Cocos2d-JS

Gen AI & Automation: Generative AI, LLMs, AI Agents, Agentic AI, MCP, Vector Embeddings, Claude Code, Workflow Automation

APIs & Integration: REST, GraphQL

Other Skills: Jira, Jenkins, Git, GitHub, Chrome DevTools, Mixpanel, OOPS, NPM

PERSONAL WORK

- Solved 1000+ DSA questions on GeeksForGeeks, LeetCode and Codestudio
- Other Links: GitHub | Live Project | Medium | CodeChef
